

## RFP #08-18 EPA Certified liquid bi-fuel propane conversion system

Vendor questions:

1. Have these buses been built yet? If so then are they currently at your facility in CT?

The VTD bus procurement is currently in production at the manufacturer. Production on first of 14 vehicles began on September 7, 2018. Delivery to VTD facility is estimated to be in mid October.

2. What is the minimum GGE (Gasoline Gallon Equivalent) capacity requirement on these vehicles?

The gasoline tank capacity is 55 gallons. We would like the selected bidder to determine the Gasoline Gallon Equivalent for LPG.
